ARSHAD S

arshadsahabdeen05@gmail.com LinkedIn Github

SUMMARY

Results-driven Computer Science and Design student skilled in Java, SQL, and full-stack development. Experienced in building scalable web applications, REST APIs, and AI-powered solutions using MERN, FastAPI, and Spring Boot. Strong problem-solving skills with a passion for developing innovative software solutions and continuous learning.

PROJECTS

Solar Monitoring App (SIH 2025) **Flutter | Analytics Dashboard**

- Built a Flutter-based solar monitoring app featuring real-time sensor monitoring, analytics dashboards, maintenance alerts, and an AI-powered chatbot for troubleshooting and user support through backend API integration.

Forensight — Mobile Forensic Investigation Platform **React | Spring Boot | PostgreSQL | FastAPI**

- Developing a full-stack digital forensics platform for UFDR-based mobile evidence analysis, featuring secure case and evidence management, forensic data processing, and an extensible AI service architecture for intelligent investigation, timeline reconstruction, and relationship analysis.

DevSphere — Collaborative Project Development Platform **MERN Stack | Socket.IO | REST APIs**

- Built an AI-powered project management and risk intelligence platform using the MERN stack and Python-based Machine Learning. Developed a Random Forest risk prediction engine that analyzes project progress, task delays, risks, and team activity to provide real-time risk insights and predictive analytics dashboards.

INTERNSHIP

Software Development Intern **Apr - Jun 2025**

Nous Infosolutions LLP, Coimbatore

Built a full-stack web application (Garment management system) with FastAPI, Angular, and MySQL, implementing REST APIs, database integration, and optimizing dashboard performance by 30%.

STRONG SUBJECTS

Languages: Java, C++
Frontend: React.js, Angular, HTML5, CSS3
Backend: Node.js, Express.js, FastAPI, Spring Boot
Databases: MongoDB, MySQL
Cloud & Tools: AWS, Git, GitHub, Postman, Selenium

HACKATHONS

Smart India Hackathon (SIH) 2024 | Participant – Developed a prototype for an ML-based adaptive CAPTCHA system for UIDAI, focusing on enhanced security, accessibility, and improved user experience.

Smart India Hackathon (SIH) 2025 | Participant – Developed GridX7, an IoT-powered Solar Grid Management Application for real-time monitoring and intelligent management of solar energy, battery systems, and power consumption using Flutter, ESP32, and Firebase RTDB.

CERTIFICATIONS

AWS Cloud Practitioner Essentials, Artificial Intelligence for All, Database and SQL, Java Programming Fundamentals

EDUCATION

Course	Institution	University	Year	CGPA/%
B.E Computer Science and Design	SKCET	Anna University	2023 - 2027	7.83 CGPA
Class XII	SSVMWS	CBSE	2023	77%
Class X	SSVMWS	CBSE	2021	73%
